In case the Note is sold or redeemed during the loan period, such disposal shall be treated in taxation according to the provisions relating to capital gains and losses. A loan which is taken in order to finance the purchase of a Note falling outside the scope of the Act on Withholding Tax on Interest is treated in taxation as debt to finance the relevant income. The investor may deduct the interest paid on such loan from his/her capital income. In an individual case it may be advisable to consult the investor's own tax consultant or tax authorities for information in further detail.</p> <p>SEB will take a structuring fee of approximately 0.5-1.00% (from half to one per cent) p.a. including but not limited to OMX listing costs, NCSD related costs, index license costs, hedging costs and any other costs arising or related to the administration of the note.</p>

Adjustments, Consequences of Certain Events

If the Calculation Agent determines that, in respect of the Index, an Index Modification, Index Cancellation or Index Disruption has occurred or any other event or events occur as a result of which the Calculation Agent determines that an adjustment to this Appendix and/or any other relevant term of the Notes is appropriate, the Issuer may make such adjustment to this Appendix and/or any other relevant term of the Notes as the Calculation Agent deems necessary. The Issuer shall give notice to the holders of the Notes of any such adjustment.

In the event that the official closing level of the Index published by the Index Sponsor for the Strike Dates is subsequently corrected and the correction is published by the Index Sponsor within three (3) Exchange Business Days after the original publication, the Calculation Agent will adjust the value to reflect such correction. In the event that the official closing level of the Index published by the Index Sponsor for any Observation Date is subsequently corrected and the correction is published by the Index Sponsor within three (3) Exchange Business Days after the original publication, the Calculation Agent will adjust the value to reflect such correction.

If the Calculation Agent determines that an Additional Disruption Event has occurred, the Issuer may, at its option, either (A) elect to redeem each Note at its Fair Economic Value or (B) determine not to redeem the Notes and instead require the Calculation Agent to determine the index linked final amount (if any) to be paid to the holders at maturity using for FP the official closing level of the Index (as published by the Index Sponsor) on the last Exchange Business

Day before the day on which the Additional Disruption Event occurred . Notice of any Additional Disruption Event and the determination made by the Issuer in respect thereof shall be given to the holders of the Notes in accordance with Condition 13 as soon as practicable after an election is made by the Issuer following the occurrence of the event. In that case (a) the eighth Scheduled Trading Day shall be deemed to be the Strike Date, notwithstanding the fact that it is a Disrupted Day and (b) the Calculation Agent shall determine the closing level of the Index on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted closing prices on that eighth Scheduled Trading Day of each security comprised in the Index.

If the Calculation Agent determines that any Observation Date is a Disrupted Day, then the Observation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the original date that, but for being a Disrupted Day, would have been an Observation Date is also a Disrupted Day. In that case (a) the eighth Scheduled Trading Day shall be deemed to be the Observation Date, notwithstanding the fact that it is a Disrupted Day and (b) the Calculation Agent shall determine the closing level of the Index on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted closing prices on that eighth Scheduled Trading Day of each security comprised in the Index.

For the purpose of determining whether a Market Disruption Event exists at any time in respect of a security included in the relevant Index at any time, then the relevant percentage contribution of that security to the level of such Index shall be based on a comparison of (x) the portion of the level of the relevant Index attributable to that security and (y) the overall level of such Index, in each case immediately before the occurrence of such Market Disruption Event, as determined by the Calculation Agent.
